

# How do I know the teaching will be good?

All of the staff have been trained to teach reading in the way we do it in this school. We believe that it is very important that all the teachers and teaching assistants work in the same way. Senior teachers watch other teachers teaching to make sure that the children are learning in the way we want them to learn.

If you are worried about the teaching or you have any questions, please come to school and talk to us.
